

NRC is seeking applicants for a PDF position involving HX-MS. The title is "Investigating the influence of epitopes on antibody trafficking across the blood-brain barrier using Hydrogen Exchange Mass Spectrometry". A short summary of the proposed research as well as details on how to apply can be found on the NRC website at "[http://www.nrc-cnrc.gc.ca/eng/careers/programs/postdoctoral\\_fellowships/pdf\\_projects.html](http://www.nrc-cnrc.gc.ca/eng/careers/programs/postdoctoral_fellowships/pdf_projects.html)". The application deadline is April 23<sup>rd</sup>, which is a short time window. This is part of a NRC-wide PDF competition designed to stimulate basic research in key areas of interest to NRC. As such the PDF will have a large measure of freedom to explore new ideas and applications.

Individuals needing more details about the position can contact either John Kelly ([John.Kelly@nrc-cnrc.gc.ca](mailto:John.Kelly@nrc-cnrc.gc.ca)) or Jennifer Hill ([Jennifer.Hill@nrc-cnrc.gc.ca](mailto:Jennifer.Hill@nrc-cnrc.gc.ca)).
