

## **Biological Mass Spectrometrist**

John L. Holmes Mass Spectrometry Facility ([www.jlhms.uottawa.ca](http://www.jlhms.uottawa.ca)), a core facility in the Faculty of Science at the University of Ottawa is seeking for a Biological Mass Spectrometrist experienced in biological mass spectrometry and proteomics.

**RESPONSIBILITIES:** The Mass Spectrometrist will work in on a Thermo LC-Orbitrap Fusion with ETD, a MALDI/LC-Orbitrap Q Exactive Plus and a Waters Synapt G2 TOF coupled with a Beckman CE. He/she will prepare samples and perform MS experiments for proteomics, metabolomics and MS imaging; conduct comprehensive data analysis; maintain the instruments;

**REQUIREMENTS:** The successful candidate should have a graduate degree (MSc or PhD) in chemistry, biology, biochemistry, or related fields and at least 4 years experience in biological mass spectrometry.

**TERMS, SALARY AND BENEFITS:** This is a full-time position, starting immediately or upon mutual agreement. Employment will be based on a one-year renewable contract. The salary range is from \$59,000 to \$67,000, commensurate with experience and qualifications. Only Canadians and permanent residents may apply. Interested candidates please email a cover letter and CV to the facility associate director, Prof. Maxim Berezovski ([maxim.berezovski@uottawa.ca](mailto:maxim.berezovski@uottawa.ca)). Only candidates selected for an interview will be notified.
